

## Spring 2023 Onion & Leek Transplants

Variety	Type	Storage Capability Mature Onion	Description
<b>Texas Super Sweet</b> (1015)	Short Day Yellow	2 Months	Yellow, globe shaped jumbos. Always tender and uniformly sweet. Best short day storage.
<b>Yellow Granex</b> (YG)	Short Day Yellow	1 Month	Yellow, semi-flat, sweet, hybrid.
<b>White Bermuda</b> (WB)	Short Day White	2 Months	White, flat, sweet, open pollinated. Excellent for use as a green onion.
<b>Texas Early White</b> (TW)	Short Day White	2-3 Months	White, globe shaped, sweet, open pollinated. Well known for ease of growing, flavor, and disease resistance.
<b>Southern Belle Red</b> (SBR)	Short Day Red	2-4 Months	Red, globe shape, sweet, hybrid. Better uniformity, more disease and bolt resistance, and larger size potential of other short day reds.
<b>Red Creole</b> (RED)	Short Day Red	6-7 Months	Dark red, globe shape, pungent, open pollinated. Best short day storage. Bold, spicy flavor.
<b>Short Day Sampler</b> (SDS)	Short Day Mixed	3 Months	Includes a mixture of Texas Super Sweet(1015Y), Texas Early White, and Red Creole varieties
<b>Candy</b> (CAN)	Intermediate Day Yellow	3 Months	Sweet, Mild Flavor. Produces jumbos to colossal. Thick rings inside, white flesh. As tasty as Texas Super Sweet. Easy to Grow.
<b>Super Star</b> (SUP)	Intermediate Day White	2 Months	White, Globe shaped, Sweet. AAS winner.
<b>Red Candy Apple</b> (RCA)	Intermediate DayRed	2 Months	Beautiful Red flattened globe shape, sweet. Will take additional nitrogen application to produce jumbo size in long day areas. Great seller for early season markets.
<b>Intermediate Day Sampler</b> (IDS)	Intermediate DayMixed	2 – 3 Months	Candy, Red Candy Apple, and Super Star varieties(because of how they are planted there is no way to tell what they are until they mature)
<b>Yellow Spanish</b> (YS)	Long Day Sweet Yellow	4 Months	favorite onion grown by commercial growers in northern states because it makes uniformly large, sweet bulbs.
<b>Ringmaster</b> (RM) (White Spanish)	Long Day Sweet White	4 Months	Best white onion in long day category. It is the favorite for onion rings since it has single centers and large, crisp rings.
<b>Walla Walla</b> (WW)	Long Day Sweet Yellow	1 Month	Large Yellow Skinned white flesh, sweet and mild. Not the best storer but is a best seller
<b>Redwing</b> (RW)	Long Day Sweet Red	8 – 10 months	The best long day red onion for northern growers. Globe shaped, slightly pungent.
<b>Highlander</b> (HL)	Long Day Sweet	4-5 Months	Yellow, slightly flat globe shape, sweet. Extra early maturity dates, great for early onion markets. Stores well. Medium sized
<b>Long Day Sampler</b> (LDS)	Long Day Mixed White	1-10 Months	Redwing, Ringmaster, and Walla Walla (because of how they are planted there is no way to tell what they are until they mature)
<b>Leeks</b>
